

CODEMARK™

Product description

DriStud Bozz a polymeric faced, bituminous modified self-adhesive tape with a release backing paper. The tape is branded with the DriStud Bozz Window Flashing Tape branding and CodeMark logo.

Product purpose or use

DriStud Bozz Window Flashing Tape is intended for use in new and existing buildings in conjunction with an underlay or rigid air barrier. It is used around framed joinery openings and penetrations, providing a secondary weather resistant barrier. It is designed to be used in conjunction with air seals and joinery flashing systems, but not as a substitute.

DriStud Bozz Window Flashing Tape may also be used at joinery heads to seal flashing upstands to the building wrap.

Where a rigid underlay has been installed, DriStud Bozz Window Flashing Tape may be used to seal all junctions and penetrations.

It is suitable for use with timber and steel framed buildings as well as masonry structures.

PRODUCT CERTIFICATE

This is to certify that

DriStud Bozz Window Flashing Tape

**BUREAU
VERITAS**

Complies with the New Zealand Building Code (NZBC):

If designed, used, installed and maintained in accordance with the scope of this certificate, the above mentioned product will meet or contribute to meeting the following provisions of the NZBC:

Durability B2.3.1 (b), B2.3.2 (a)
External Moisture E2.3.2, E2.3.7
Hazardous Building Materials F2.3.1

Subject to the following conditions and limitations:

1. Must be installed in accordance with the DriStud Bozz Window Flashing Tape Installation Manual Rev 2, September 2016. This is available at www.dristud.co.nz
2. The scope of this certificate covers the use of DriStud Bozz Window Flashing Tape in buildings:
 - up to 10m in height, and
 - with a risk score less than 20, when evaluated against the E2/AS1 risk matrix, and
 - in wind zones up to extra high as defined in NZS 3604:2011 Timber-framed buildings, and
 - in all corrosion zones as defined in NZS 3604:2011 Timber-framed buildings.
3. Installation at an ambient and substrate temperature of less than 10°C falls outside the scope of this certificate.
4. The scope of the certificate covers the use of DriStud Bozz Window Flashing Tape with DriStud Wall Wrap, Kraft Building Paper, Tyvek Home Wrap, and Watergate building wraps and rigid air barriers made from plywood, OSB or fibre cement.
5. Can be exposed to the environment 42 days before being covered.
